

## Aims & Scope

Marine Research aims to provide a medium for the publication of original research and the latest development work in the field of marine science, technology, and resource management. Marine Research is a refereed open-access journal published original peer-reviewed research, by the National Academy of Marine Research (NAMR). The development and management of marine require the insights of a number of monodisciplinary, multidisciplinary as well as integral studies and approaches. The different disciplines may range from the natural and physical sciences to the social sciences, policy analysis, economics, and marine culture.

Examples of topics covered by the journal include, but are not limited to, the following:

### **Marine Affairs**

- Marine Affairs Research
- Marine Resources and fisheries management
- Lifesaving and Rescue
- Marine Conservation/Education

### **Marine policy and Culture**

- Marine laws and policies
- Marine Culture's research
- the socio-economic systems of islands and islanders
- the humanities and cultural issues pertaining to the marine and island environment

### **Marine Ecology and Conservation**

- Conservation of marine organism and habitat
- Research and development of marine biotechnology
- Prevention and control technique of marine invasive species
- marine ecology

### **Marine Science and Technology**

- marine science research
- marine observation and marine database analysis
- Pollution control and management
- climate adaptation

### **Marine Industry and Engineering**

- Research and technology for marine renewable energy
- Disaster prevention technology
- Marine industry
- Coastal Engineering

Marine Research welcomes submissions of papers around the world on all the above topics, and it has no publication fees.

## **Marine Research**

### **Guide for Contributors**

Submissions are welcome from researchers worldwide. Manuscripts must be original and not previously published or simultaneously submitted elsewhere. To contact the Marine Research editorial office, please email [Marine.Research@namr.gov.tw](mailto:Marine.Research@namr.gov.tw)

#### **Editorial Policies**

For authors whose paper has been submitted and accepted, they need to sign the Copyright License Agreement and the publication right of the paper will be transferred to Marine Research. Authors need to be fully responsible for the accountability of their papers; they must ensure that their papers have never been submitted to other journals, and is free of plagiarism and any copyright infringement complications.

#### **Style and Formatting**

1. Language: Papers should be written in English. Either British or American style is accepted but should be consistent through the whole manuscript.
2. Units: The SI units should be used.
3. Typescript: Electronic manuscripts should be prepared in single-spaced format with a font size of 10 points.
4. Title and Author: Title of paper should be concise, informative and in capital letters. Author(s) and affiliation(s) should appear below the title.
5. Abstract and Keywords: Abstract should not exceed 300 words; Keywords should not exceed 5 words.
6. Headings: Headings for sections should be centered and numbered with Roman numerals. Headings for subsections should start from the left-hand margin and numbered with Arabic numerals.
7. Equations and Mathematical Formulas: All equations and mathematical formulas should be typewritten. Equations should be numbered serially on the right-hand side by Arabic numerals in parentheses.
8. Figures and Tables: All figures and tables should be numbered and have descriptive captions.
9. References: References should be listed in alphabetical order according to author(s), patentee(s), or editor(s). Complete citation should be given for each reference. If you are citing a work written in a non-Latin script (e.g., Chinese, Greek, Japanese, Russian), the reference must be transliterated into the English alphabet.
